HIGH-PRESSURE CLEANERS FOR INDUSTRIAL USE

We are specialists in customized solutions and project sales

Customized solutions

We are specialists in development and optimization of high-pressure products. In close collaboration with leading Danish customers we design and develop customized solutions at our factory in Denmark.

Project sales

RENO offers to plan and design the complete high-pressure installation with stainless steel piping. With our own service department RENO also provides complete installation of cleaners and piping systems - and we ensure a durable and time efficient solution of high quality.

OEM (Original Equipment Manufacturer)

Due to many years of experience within high quality high-pressure cleaners a large number of RENO's products are an integrated part in the end-product in a number of reputable manufacturers. In case of any questions or need for advice - please contact us at tel. +45 76 70 85 00.
